SUMMARY:

Incoming 4th-year BSIT student with a deep curiosity for design and how technology shapes user experiences. I believe discipline beats talent, which is why I strive to improve by 1% every day—through practice, observation, and reflection. I enjoy crafting simple, meaningful, and user-friendly designs. My goal is to gain real-world experience that challenges me to grow creatively and technically. I'm excited to learn, contribute to real projects, and turn ideas into solutions that make an impact.

EDUCATIONAL ATTAINMENT

Bachelor of Information Technology (Expected: 2026)
The Fisher Valley College
Ongoing – Started in September 2022

TECHNICAL SKILLS

Programming (Vb.net and Python) | Basic Knowledge at web (PHP, HTML, CSS, jQuery and Bootstrap)
